In addition to promoting your books assiduously online, there are a number of other methods that may enable you to sell extra books.

One is to provide one thing away at no cost along with your e book, such as a priceless bonus item. Or bundle a number of ebooks under one worth, which lowers the value for every book if they were sold separately.

An efficient method for determining a price is to send out a survey to your present customers. If these customers have already bought an e-book from you, ask for their opinion when it comes to

price. Do that by making a sales web page for the new book, however don't embrace a worth on that page. As an alternative, add various hyperlinks to survey questions that ask pointed questions to assist you in assigning a value to your ebook.

Another strategy is to check out costs by making a number of duplicate gross sales pages with different prices on every page. Be sure your sales copy is strictly the same on each web page, and includes your promoting-deal with sentence. Then figure out for every page the conversion ratio between guests to your website and sales of your book. This can let you know what your optimum value is.

In the end, for those who've written a book that solves a downside or presents a new technique, your ebook will bring in each visitors and profits.
