An efficient approach for figuring out a price is to ship out a survey to your current customers. If these clients have already bought an ebook from you, ask for his or her opinion when it comes to

price. Do that by creating a gross sales web page for the new e book, but don't embrace a worth on that page. As an alternative, add quite a few links to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to check out prices by making a number of duplicate gross sales pages with completely different prices on each page. Be sure that your gross sales copy is strictly the identical on every page, and consists of your selling-handle sentence. Then work out for each page the conversion ratio between guests to your site and gross sales of your book. This may let you know what your optimum worth is.

Finally, when you've written a e book that solves a drawback or presents a new method, your e-book will herald both traffic and profits.
