and promotional materials, and every time anybody asks you about your ebook.

An effective method for figuring out a price is to send out a survey to your current customers. If these clients have already purchased an e-book from you, ask for their opinion when it comes to price. Do that by creating a sales web page for the new guide, but don't embrace a value on that page. As a substitute, add quite a few hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other technique is to check out costs by making a variety of duplicate gross sales pages with totally different prices on every page. Be sure that your gross sales copy is strictly the same on every page, and includes your promoting-handle sentence. Then determine for every web page the conversion ratio between guests to your website and gross sales of your book. This will inform you what your optimum worth is.

In the end, for those who've written a guide that solves a downside or presents a new technique, your e-book will herald each traffic and profits.
