An effective approach for figuring out a price is to send out a survey to your present customers. If these customers have already purchased an book from you, ask for his or her opinion by way of price. Do this by making a sales page for the new ebook, but do not include a price on that page. Instead, add plenty of links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other strategy is to test out costs by creating a variety of duplicate sales pages with different costs on every page. Be sure your sales copy is exactly the identical on each page, and

consists of your selling-handle sentence. Then work out for each web page the conversion ratio between visitors to your site and gross sales of your book. This can let you know what your optimum worth is.

Finally, if you happen to've written a e book that solves a drawback or presents a new method, your ebook will herald both visitors and profits. So remember to write that promoting-handle sentence that sums up what problem your ebook solves and what the advantages of your 2090 e book can be to the shoppers who purchase it.
