An effective method for figuring out a price is to ship out a survey to your current customers. If these prospects have already purchased an e book from you, ask for their opinion in terms of price. Do this by creating a gross sales web page for the new e-book, but don't embrace a price on that page. As a substitute, add a variety of hyperlinks to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

One other technique is to test out prices by creating a number of duplicate gross sales pages with different costs on each page. Be certain your gross sales copy is exactly the similar on each web

page, and contains your promoting-deal with sentence. Then work out for each page the conversion ratio between guests to your website and gross sales of your book. This may inform you what your optimum price is.

Finally, if you happen to've written a ebook that solves a drawback or presents a new approach, your book will herald both site visitors and profits. So you'll want to write that promoting-deal with sentence that sums up what downside your guide solves and what the benefits of your 2197 e book will be to the purchasers who buy it. And then watch your market come to you!
