and promotional material, and each time anybody asks you about your ebook.

One other strategy is to check out costs by creating a number of duplicate gross sales pages with different prices on every page. Make sure your sales copy is strictly the identical on every web page, and consists of your promoting-handle sentence. Then work out for each page the conversion ratio between guests to your website and sales of your book. This will let you know what your optimum value is.

Finally, for those who've written a e book that solves a drawback or presents a new approach, your book will usher in both visitors and profits.
