Besides selling your books assiduously on-line, there are a number of different strategies that may allow you to sell extra books.

One is to present something away without spending a dime with your book, akin to a helpful bonus item. Or bundle several ebooks underneath one price, which lowers the worth for every ebook if they were bought separately.

An efficient technique for figuring out a worth is to send out a survey to your current customers. If these clients have already purchased an e-book from you, ask for his or her opinion when it comes to price. Do that by creating a gross sales page for the brand new e-book, but do not include a value on that page. Instead, add plenty of hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out costs by making a variety of duplicate sales pages with completely different prices on each page. Be certain your sales copy is precisely the identical on each web page, and contains your selling-handle sentence. Then figure out for each web page the conversion ratio between visitors to your site and gross sales of your book. This can inform you what your optimum price is.

Finally, should you've written a e-book that solves a downside or presents a brand new approach, your ebook will herald each traffic and profits. So make sure you write that selling-handle sentence that sums up what problem your e-book solves and what the advantages of your 2572 e book will probably be to the shoppers who purchase it.
